## Homeowner Guide

Get your home projects done -- the fair way

## Welcome, Homeowner!

Whether it's a leaky pipe, a full kitchen remodel, or brand-new landscaping -- FairTradeWorker connects you with verified, local contractors who compete for your business. No more cold calls. No more mystery pricing. No more worrying about getting ripped off.

**Post your project for FREE and get real bids from verified contractors in your area.**

## How It Works

### Step 1

#### Post Your Project -- Free

Describe what you need done. Include photos if you have them, set a rough budget range, and pick your preferred start date. It takes about 5 minutes.

### Step 2

#### Receive Competitive Bids

Verified contractors in your area review your project and submit bids. You'll see their profile, ratings, past work photos, and a clear price -- all in one place.

### Step 3

#### Compare & Choose

Take your time. Read reviews from other homeowners. Message contractors to ask questions. When you're ready, select the best fit for your project and budget.

### Step 4

#### Work Begins -- Funds in Escrow

Before work starts, your payment is held securely in escrow. Your contractor knows payment is guaranteed. You know your money is protected.

### Step 5

#### Confirm & Release Payment

When the job is done to your satisfaction, release the escrow payment. Then leave a review to help other homeowners in your community.

## Understanding Escrow Protection

Escrow is the feature that makes FairTradeWorker different from every other platform. Here's exactly how it protects you:

### **You Fund Escrow Before Work Starts**

When you hire a contractor, you deposit the agreed amount into our secure escrow account. The contractor sees funds are ready -- motivating them to start on time.

### **Money Stays Safe Until You Approve**

Your contractor cannot touch the funds until you confirm the work is done. You're always in control.

### **Dispute Resolution Built In**

If something goes wrong, our team steps in to review the situation fairly. You're never left fighting alone.

### **Automatic Release on Approval**

Approve the job and payment releases instantly. Simple, fast, transparent.

## Common Questions

**Q: Is it really free to post a project?**

A: Yes. Posting your project, receiving bids, and communicating with contractors is completely free.

**Q: How are contractors vetted?**

A: All contractors are verified before they can bid. We check licenses, insurance, and identity.

**Q: What if I'm not happy with the work?**

A: Don't release the escrow. Contact our support team and we'll help resolve the issue fairly.

**Q: How many bids will I receive?**

A: Typically 3-7 bids depending on your service area and project type.

**Q: Can I hire a contractor I've worked with before?**

A: Yes. You can invite specific contractors to bid on your project directly.
